Join in for a bestselling knitting colour party!

The #urbanknitting series is one of the most popular knitting series in Norway – and the latest book, *Colour Party*, went straight to the top of the bestseller list when it was published this year!

Ingunn Myklebust's designs combine the traditional with the modern, and she creates patterns for the whole family that are easy to follow – regardless of your knitting skills. Throughout her many years of working with yarn and design, she has grown more and more fond of using colours, and is constantly looking for new and non-traditional colour combinations and new yarn varieties. In *Colour Party*, you'll find patterns characterised by happy colours that can brighten up your days after the strange times we've just been through. Ingunn's wish is to inspire – and perhaps even dare – you to try out colour combinations you might not have thought were possible!

Will you join the colour party? You'll be in good company with over 120,000 people in Norway who've bought this book, as well as the five previous books in the #UrbanKnitting series.
