THE EYE OF THE SUN

THE SKY PEOPLE 2

Original title: *Solens øje*
Skyfolket 2
Publisher: Politikens Forlag, 2025
Category: Children's
Pages: 192

The Eye of the Sun is a fast-paced and thrilling story about identity, inner strength, and daring to be yourself.

When Olivia discovers she only possesses half of the powerful amulet known as the Eye of the Sun, she realizes she is in grave danger. Without the missing half, she is far from invincible—and if it falls into the wrong hands, her enemies could destroy her and wipe out the Sky People forever.

Alongside her friends Anna and Nikolaj, Olivia embarks on a high-stakes quest to reclaim the amulet, taking her from shadowy threats to the bright lights of a pop concert. But someone else is always one step ahead. A mysterious figure lurks in the background—who are they, and what if they are much closer than Olivia thinks?

The Eye of the Sun is the standalone second book in The Sky People trilogy, following *The Warrior Girl* (2024).
