The new knitting success from Norway; #URBAN KNITTING went straight to the top of the bestseller list when published last year, and stayed there for more than 30 weeks. Since then three more URBAN KNITTING books has been published, and more than 90 000 books are sold, in Norway alone!

Ingunn Myklebust, one of Norway's most popular knitters with 50 000 followers on Instagram, has collected her most famous recipes in this book. Ingunn's speciality is to combine unique traditional patterns with self-developed color schemes into garments you can use in your urban life as well as for leisure.

Elegant and trendy, and easy to knit for everyone. The diagrams for the different patterns are made in a readable size, and each round of patterns is numbered, which makes it easier to follow.

With recipes for adults and children, women and men - and even sweaters to your four-legged friend, this surely is a book that will inspire.

There are four books in this series: Urban Knitting, Urban Knitting for all, Urban Knitting3 and More Urban knitting.

I love to combine tradition with modernity, to find new color combinations and think a little different when I develop new patterns. My garments can definitely be worn with high heels!
