Following the success of 1. LOOP, Agathe Skappel and Jeanette Karlsen return with a new crochet collection that bring traditional craftsmanship into playful and glamorous designs, for a new generation of crocheters.

In *2. LOOP GOLDEN*, the LOOP universe takes a more glamorous direction, bringing traditional crochet into a world of metallic tones, sparkling details and couture-inspired design. Gold, copper, glitter and beads transform the crocheted bags into small pieces of jewellery: elegant accessories that work just as well for an evening out as they do with a stylish everyday look. A collection for readers who love texture, beautiful details and handmade statement pieces.
